

# DFO World Gym

**Client:** Riva Ridge Pty Ltd

**Location:** Cairns

## **Scope:**

The landlord works comprised of the creation of a glazed shopfront with automatic double sliding doors which required structural modifications to the existing tilt panel walls. We also provided new tenancy walls, doors, bulkheads, manual operation glazed doors and certified fire exits.

All hard ductwork and other services had to be reconfigured to accommodate the new layout. The fitout included the creation of public amenities, with regulation waterproofing and slip-resistant floor tiling, showers for patrons with full height wall tiles to showers, and toilet partitioning systems.

The existing concrete floor was filled in where needed and ground ready for flooring finishes.. Finally, painting was carefully applied to provide smart & finished premises, ready for fit out of exercise equipment.
