

# Endeavour Christian College Stage 2

**Client:** Christian Community Developments

**Location:** Cooktown

## **Scope:**

Stage 2 works at the new school site involved a new building – Block B. Consists of a Library Space, 2 qty General Learning Areas, Home Economics Kitchen and toilet facilities.

The two storey building included a Lift and blockwork lift shaft, stair well and side stairs. The balustrading was using Locker Group perforated aluminium, and the roof design was curvature. A lot of architectural detail to make this building interesting and appealing, but blending with the natural landscape of the Far North.
