

Ergon Atherton

Client: Ergon Energy

Location: Atherton

Scope:

The internal fitout of an existing Ergon Energy building, involved demolition works, extension and infill of an existing garage area, and complete fitout of office and administration spaces.

Creation of meeting rooms, office spaces and workstation areas, with fresh painted linings and neutral colourings, has made this premise a welcoming workplace.

A staff lunch room, kitchen, locker rooms and washroom facilities, completes this workplace.
